About Us

As leading Provider of High Quality Waterproofing systems in Qatar, we take pride in offering the best solutions & systems According to the Requirement. We are dedicated to serving the needs of our customers each and every day. We have been erving Qatar's Construction industry since the year of our inception in 2008.

We are Specialized For Insulation Materials Co. are Specialized in the application of high quality waterproofing systems i.e. Waterproofing's and damp proofing, Cementations Waterproofing, Self-adhesive Membrane, Liquid Membrane waterproofing, Crystalline waterproofing, Torch applied bituminous membrane, crack injection, Epoxy crack injection resin, Polyurethane crack injection, Turbo seal injection system, Leak Repair, concrete restoration, Concrete Repairs, Concrete Preservation, Concrete Strengthening, Expansion join Sealant, Polysulfide sealant, Polyurethane sealant, silicon sealant, Epoxy joint filler for concrete surfaces, floor coating, Epoxy coating, Anti- carbonation, Polyurethane coating.

Effective planning is crucial to the successful completion any any project. Before commencement of any Project, our team of experts will first assess your goals, followed by critical Path analysis in order to provide you within estimate and timeline of completion. From commencing of the project till it's completion you will be involved in every step of our successful completion of the work.

Cost- Effective Services

Eliminate all the items on your to-do list by calling the experts at Specialized for Insulation Materials Co. waterproofing. you'll be glad you did. We have many years of experience and worked hard to make sure the job is done right while saving your Time, money and aggravation. We'll be there whenever you need us.

Why Choose Specialized For Insulation Materials

- Advance Waterproofing Techniques.
- Be Responsive to our client's needs.
- Listen to our clients Requests.
- Provide the most Appropriate Recommendations.
- Offer Alternative Choices and Options.
- Provide highly trained and skilled labour.
- Provide Proactive communication to our clients.
- Honor Price Proposals and committed schedules.
- Make sure our clients are 100% satisfied with our work.
- Offer the best value to our customers.

VISION

To deliver the highest Standards of Waterproofing and thermal insulation systems to our customers with the utmost professionalism, trust and reliability.

MISSION

To safely deliver any project, any time,in any environment for the benefit of our customers

Objectives

To create innovative solutions in our operations on utilizing state of the art technology to achieve our goals.

To enable the company to rely on a wider vision in it's Performance and a variety of feasible options, from the early concept stage to practical applications.

d. Philosophy

Values

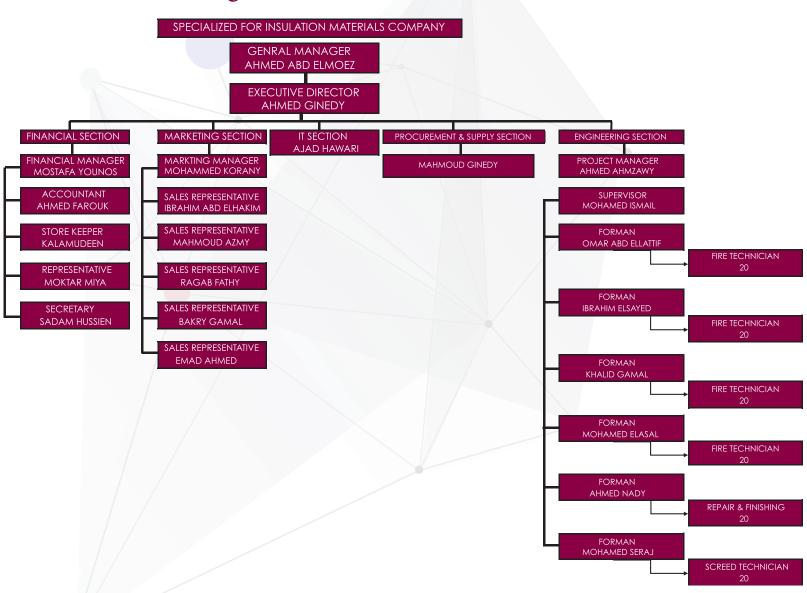

- Uncompromising commitment to Quality, Health, Safety and Environment
- An open relationship with our employees based on mutual trust respect and success
- Transparency, Accountability and Discipline in our business
- Best in class Risk Awareness Integrity in all we do.

Our Commitment

Health and Safety is the number one priority in our business. We continue to focuse on promoting a positive safety culture aiming to ensure that employees

Acrylic Mastic

MAXI Acrylic Mastic (Mannai Trading)

ROOF COAT To prevent cracks.

Maxi Roof Coat (Mannai Trading)

Scope Of Works

Roofs

- Cleaning & smoothing the surface.
- Brushing and priming the surface with the specified primer.

Isola Primer

Providing and laying 4mm thick. Polyester reinforced water proofing membrane with min.100mm overlaps with the specified membrane.

SABIT - Plasto 4mm Black Saudi Arabia

- Providing and laying 4mm thick. Polyester reinforced water proofing membrane for upstand and fixing into wall grooves.
- Water test 72 hours
- ◇ Providing and laying 50mm thick. Extruded polystyrene foam (Extra High Duty) of density 32 – 36 Kg/m3.
- Providing and laying the specified separation sheet.

GEO TEXTILE 100gm

- Providing and laying average 100 mm thick. Screed mix in 3 x 3 m bays, with good slopes to rainwater outlets.
- Minimum 3 days curing after completion of screed.
- Filling Acrylic mastic (MAXI) in screed expansion joints.
- Applying of the top fillet after screed and painting it against cracks.

 Maxi Roof Coat

Wet Areas

- Cleaning & smoothing the surface.
- Drushing and priming the surface with the specified primer.

Isola Primer

Providing and laying 4mm thick. Polyester reinforced water proofing membrane with min.100mm overlaps with the specified membrane.

SABIT - Plasto 4mm Black Saudi Arabia

- Providing and laying 4mm thick. Polyester reinforced water proofing membrane for upstand and fixing into wall grooves.
- Water test 48 hours.

Foundations & Wall

Cleaning & smoothing the surface.

Brushing and priming the surface with the specified primer.

Isola Primer

Providing and laying 4mm thick. Polyester reinforced water proofing membrane with min.100mm overlaps with the specified membrane.

SABIT - Plasto 4mm Black Saudi Arabia

BITUMAT - Top seal 4mm Black Saudi Arabia

Providing and laying 4mm thick, protection board:

BITUMAT - Bituprotect

Injection System

Supply and apply leak repair using PC crack Injection system for basement using Tampur 150 of Norment UK PU 400 of DR. FIXIT
